for almost two decades of its history 1975 90 lebanon was besieged by sectarian fighting foreign invasions and complicated proxy wars in posthumous images chad elias analyzes a generation of contemporary artists who have sought in different ways to interrogate the contested memory of those years of civil strife and political upheaval in their films photography architectural projects and multimedia performances these artists appropriate existing images to challenge divisive and violent political discourses they also create new images that make visible individuals and communities that have been effectively silenced rendered invisible or denied political representation as elias demonstrates these practices serve to productively unsettle the distinctions between past and present the dead and the living official history and popular memory in lebanon the field of contemporary art is shown to be critical to remembering the past and reimagining the future in a nation haunted by a violent and unresolved war

thewrong approach investigates the various events and personalities that shaped the context within which architect bernard khoury had to operate particularly that of beirut as it emerged from the early post war 1990s up to its present state of uncontrolled dissonance in keeping with the architect s approach the book is brimming with contradictions and does not seek to portray his work in light of consensual definitions of context and territory rather than an attempt to theorise the architect s motivations and objectives it reads like a sort of counter manifesto the volume is composed of four distinct sections the narrative the album the index and the synopsis of characters mentioned in the text even though the narrative begins to unfold at the very start of khoury s career it deviates from a generic timeline resume taking on the rhythm of a story punctuated by bullet points projects and events that were critical in forming the architect s approach and his resistance against the prevailing trends of the profession following the text is the album a purely pictorial passage of photographs and drawings that span the his entire career then the index couples every image with a concise critical writing addressing and expanding on issues that are mentioned in the narrative the last section of the book is dedicated to the aforementioned characters of the narrative revealing the people behind the aliases and their associations with the architect
